Stay by my side
And help me through the night
The wind's blowing cold
Stay by my side
Lock out the world tonight
There's just you and me
So please become reality

Sometimes you feel a stabbing pain
Which tells your wicked rambling brain
That you're all alone
The lights go out all voices die
You're small and fragile but you try
To roll back the stone

So could you be a place
A place for me and all these days
When all that I know
Is that I want you to stay

By my side...

You're still a dream of hope to me
An angel of my phantasy
I want you to be real
So give me shelter keep me warm
Find me a highway through the storm
I want to go home

So could you be a place
A place for me and all these days
When all that I know
Is that I want you to stay

By my side...

God speed you to love
God speed you to love

I want you to stay by my side...
