It's been so many days so many nights, so many
people
I wanna see the sky like a child with eyes that don't
Ask why
The orange light lights up the past it's shining bright
But moving fast

I love I love I love the time when time is a word
Without life
Lost on the way but the way is all it takes
I know I'm lost in empty space land
So this one goes out to an unknown friend

Can you see the sky the sun is dying away in this
Orange light
My love is tangerine no matter where you are

Dub me

I love I love I love the time

When time is a word without life
Swimming in orange light without fear
I know I'm lost in empty space land
So this one goes out to an unknown friend

Can you...

Dub me - tangerine

Mach mir den Himmel rot
Brenn auf mein Gesicht lass die Seele erglänzen
Kriech mir unter die Haut ich will das Feuer berühren
Mach mir den Himmel rot
Lass mich in dir vergehen
Schau mir ins Gesicht ich will dich jetzt berühren
Mach mir den Himmel rot und schenk mir deine Glut
Mach mir den Himmel rot
Mach mir den Himmel rot
