You don't have to believe in something
Taught it all your life and now it's
Just because you've been
A friend would tell the truth to you

All that's in between
Let go and help you see it too
Do you feel safe?
When there are no more excuses left for you to create
[Chorus]

It does it to me every time
You'll pretend to be happy until you die
You must be reading my mind
You just turned away
A friend not a stereotype
This time, I needed you
There's nowhere left to run you know it's
Stupid games, they're all the same
Easier to hide
I played it fast/ I hit rewind
Until it's time, it's time to play divide
There was something in front I was hiding behind

Do I need help?

Because the only person you can rely on now is
yourself
Should of known better than to leave it there
Should of known better than to leave it there

Don't concern yourself cos everything's alright
