Clean slate
Suddenly waiting for something that I know won't come
Now I've
Only got time to think how did it end up this way?

Not enough
Not enough inside (x2)

All the things that are here to remind me
Would you take them away?
All the things that you learn to rely on
Change in your lifetime

Dream state
I won't deny now that something was holding us back
Clean slate
Nothing worth writing so I just confide in myself

Not enough
Not enough inside (x2)

All the things that are here to remind me
Would you take them away?
All the things that you learn to rely on
Change in your lifetime

Not enough
Not enough inside (x2)
