

## **Bodyjar** **"Living In"**

Visit "[Living In](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I see you've got some time to waste  
You wish your dreams away  
Why don't you get that gun?  
It could be so much fun

We're biding our time together  
We're trying but it doesn't matter  
Because we're living in  
We're living in [unverified]

Look what progression's done  
Just look at what it's become  
They made things happen fast  
But never made them last

We're biding our time together  
We're trying but it doesn't matter  
Because we're living in  
We're living in [unverified]

Too many problems in my life  
I wish they'd all just get away

Too many problems in my world  
I wish they'd all just go away
