Just like I said You're so easily read
Keeping the score When you know that you're so far
behind
Remember what I said to you Only speak when you are
spoken to
Open your eyes in the dark you can't see Lie to your
friends
If you have to be open with them Please don't ask for
help my friend
I've got so much blackmail to be sent

Today's ways
Don't owe you nothing
Today's ways
Don't owe you nothing
Today's

Just like I said Keep your thoughts in your head
Trouble this time Your opinion is clashing with mine

I can not see what you mean Haven't touched you yet
my hands are clean
Speak up and shout slam the door don't walk out Keep
on complaining
The punishment will fit the crime I know that's not quite
fair for you
But I don't care there's nothing you can do Like I said
you're not my friend
Like I said you're so easily led Like I said you're not my
friend
Like I said you're so easily led

Today's ways
Don't owe you nothing
Today's ways
