"Feeding The Birds"

Visit "[Feeding The Birds](#)" on MotoLyrics.com

Feeding off the bread-heads
Dead like dust from a scalp
They've never seen any useful help

To know is to hate
The shit and the spit
The itch is getting worse and it's spreading

What you see is what you know

Find and use the reasons for
What you don't use anymore

To live is to lose
Win if you want
You want what you love
But nothing you can see

What you see is what you know

Find and use the reasons for
What you don't use anymore
