"I'm Tired"

Well I'm tired
I should sleep for a while
To be happy again

Give me peace
A little quiet
I'll be happy again

Well I'm sad
I should laugh at myself
So I'm not sad for long

I should stop all this talk
Shut my mouth and get on

Please don't let me
Don't listen to

Well I'm fine
I'm alright
It's just me
You should expect it by now

Just forget what I said
I was just fooling around

Please don't let me
Don't listen to(x4)
