I was counting the days  
and i was counting the reasons  
I was satisfied  
everything was fine  
But you should've never come

Shorter shorter  
no time to spare  
the ironys there  
but I can never be sure  
Shorter shorter  
it easy here  
you can blame it all on her  
but you can never be sure

I was waiting in line  
and i was waiting for something  
that was years ago  
i was pretending i knew  
you should've never went

Shorter shorter  
no time to spare  
We will soon disappear  
but you can never be sure  
Shorter shorter  
so hard to tell  
if its cut and dry  
i can never be sure

People say its easy to tell  
why do i find it so hard to
