Take a tip  
Save your breath  
The moment is passed us for now

No distractions  
No applause  
The less is more

How can we talk of more  
When the bricks are at our feet?  
We let them all fall in on us  
And all because

Wrap it up  
Keep it quiet  
Nobody likes a pest

To be happy  
To be bored  
Let the rest be noise

How can we talk of more  
When the bricks are at our feet?  
We let them all fall in on us  
And all because

We could go back now  
There'd be nothing left to find  
We let them all fall in on us  
They fall in on
