Words are paper  
Thin like this is  
You said something  
No one's listening

You're trying to sit out  
You're trying to sit out somewhere

Fashion better  
This could-be place  
And you can remember  
All you have missed

You're trying to sit out  
You're trying to sit out somewhere

You can't stay here  
You can't stay here

You're trying to sit out  
You're trying to sit out somewhere

All that we are  
Elemental  
Not what we know, but  
What we can tell

You're trying to sit out  
You're trying to sit out somewhere
