F/ McAfee

[Fiend]

Yeah, yeah!YEAH!

We ain't NEVER went nowhere nigga

[Chorus: Fiend + McAfee]

I'm speakin from the rock bottom, got a problem I can solve 'em

Get your paper burn 'em out and I can pop 'em

I'm speakin from the rock bottom, got a problem I can solve 'em

Get your paper burn 'em out and I can drop 'em

[Fiend]

I said son of (?) drugged up with Kevin

Visit yours my mother protected my Smith 'n Wesson

We all done struggled the same up in the crescent

Muscled our way for now to be present

Long ways to replace that, try and take that

We gon' get there, guess where his wake at

Life-threatenin, walk over to the Gotham

Where it don't cost much, for you to pop one

Not one - shot clean after I'm out with the glow

Found him in a bag on the road

Everything that's fat is trapped in his nose

Gats was arosed, then and again

He was, with no sin as if you wanna see us

It's mandatory, no motherfuckin glamour story

Strictly owned, got the fame and glory

My name'll hold me down, I witness how it's goin down

I see my will is bread and rosy like a weed growin out

[Chorus] - repeat 2X

[Fiend]

I got niggaz confusin the loser, Fiend mental ball

cruiser user

These tactics, that make you do more than bend you over backwards

Bring slaughter to men, that serves less than a quarter

All of us are just in line so we can sail at the border
Hot water couldn't remove, the blood out the grooves
in my shoes
That's because then that nigga died on last night news
That trigger played with no shell, no clues
And the job was more handed to you - that's where the
real money
Feedin survivors real hungry
Like lines stretchin them similar, to the cord on the
bungee
My Lord told me, "You gon' take, everything but my
soul from me
Along with somethin out the four-oh from me"
Spit it how I live it, my heart got calm, go take a visit
And see that I'm repetitious that kinda survives so I did
it
It's all in this speaking, playa is you eatin?
If it's 'bout helpin you, bought a piece
And his balls are the reason for the..

[Chorus] - repeat 4X

[McAfee]

Rock bottom.. rock bottom, rock bottom..
(Rock bottom, rock bottom.. rock bottom, rock bottom)

[David Banner]

This how we do it.. from the rock bottom, you dig?
Mississippi David Banner, bringin it home, where it
belong.. {*fades out*
