[Fieldy]

Alone at home, laying in my bed  
Hearing voices in my head  
Leave me alone  
I can't cope with this pain

[Helluva]

Do you feel insane?  
Do you crave for 'caine?

[Fieldy]

Nope there's other dope  
Zanex, Valium, Vicodin, and Speed  
I'd rather smoke weed

[Helluva]

I'm the best in the west  
No stress, sticks, stills, seeds

[Fieldy]

Fulfilling my needs  
Fieldy's dreams  
Searching for some weed  
Ain't never gonna stop  
(Never gonna stop)  
'Till the day that I drop

[Helluva]

Drop it like it's hot  
At 12 o' clock on the dot  
Meet me at our corner spot

[Fieldy]

Hell yeah  
You're the best treat I ever bought  
This couldn't be a sin

[Helluva]

Gotta go

[Fieldy]

Don't leave me again

[Helluva]

From mother earth I grow, light green and pure  
You're a marijuana coinsure  
And I'm sure

[Fieldy]

Then I'ma stay high 'till the day that I die  
With this tilted grin  
How can i lie?

Smoking on the ganja, smoke when I wanna  
You neat pretty leaf, hell would find warmer  
Marijuana sauna, hot box momma, sweet queen leaf  
Smell the aroma, sweet as my momma, take away my  
drama  
The key to be free is to smoke on the ganja  
Smoke when I wanna, marijuana momma  
Falling for these trees, I'm in love with marijuana

Fieldy's dreams come true when I'm smoking on you  
Ain't no weed got no voice

[Helluva]

Come and get me if you want to

[Fieldy]

Do I have a choice?

[Helluva]

No, I'm the dope, that will make you choke and broke,  
From the ends of your thoughts, before me you were  
the shit, now you dalajo

[Fieldy]

Any time, any place, I'll smoke a toke,  
In your face, till I croak, ain't no joke,  
I give in  
Get you in

[Helluva]

Do you love the way I taste?

[Fieldy]

So-weet

[Helluva]

I'm the Queen of the crop, blow me a drop, I'm that  
bitch you love,  
And I'm only a bud  
Black dominia, fat sweet tooth indica  
I'll show you sativa, Jamaican sansamia

[Fieldy]

I love to smoke the back, where you always please me  
Taste good, look good, smell good  
You make me feel good, you set my head straight  
Never thought I could fall in love on the first date

Smoking on the ganja, smoke when I wanna  
You neat pretty leaf, hell would find warmer  
Marijuana sauna, hot box momma, sweet queen leaf  
Smell the aroma, sweet as my momma, take away my  
drama  
The key to be free is to smoke on the ganja  
Smoke when I wanna, marijuana momma  
Falling for these trees, I'm in love with marijuana
