

Fifteen "Jesus"

Visit "[Jesus](#)" on MotoLyrics.com

Hello my name is Jesus Christ
I had something to say
Set a fire in your hearts and never let it go out
This is the new Jerusalem
Please don't get hung up on me
Please don't hang me around your neck
Carry on my message
But forget about my name
I am just a messenger I am not the message
I am just a messenger I am not the message
Please don't nail me
I've already had a long day

I'm just the same as you
The whole universe is inside all of us
Please don't worship me
It makes me feel uncomfortable like there's a lack of
equality
Please don't worship me
It makes me feel uncomfortable like there's a lack of
equality
I'm just the messenger I am not the Message
I'm just the messenger I am not the Message
Jesus is All of Us
