

Fifteen **"Over And Over"**

Visit "[Over And Over](#)" on MotoLyrics.com

In Germany- They blamed the illegal aliens
They blamed the homosexuals
They blamed the racial minorities
They blamed the nomads and the homeless
In Germany- They built too many prisons
They said they're for our protection
They got everyone's consent
They got voter approval
They had to justify the effects on the economy
Of the rich stealing everything
What w don't learn we'll be doomed to repeat
Over and over and over and over

In America- We blame the illegal aliens
We blame the homosexuals
We blame the racial minorities
We blame the nomads and the homeless
In America- They built too many prisons
We say they're for our protection
We got everyone's consent
We got voter approval
We have to justify the effects on the economy
Of the rich stealing everything
What we don't learn we'll be doomed to repeat
Over and over and over and over
