I broke you heart.
I broke my heart.
I broke everything.
Trade it all in for a syringe and a bag of speed.
Trade it all in for a syringe and a bag of speed.
I broke you heart.
I broke my heart.
I broke everything.
Trade it all in for a syringe and a bag of speed.

I-I-I
Was 15 years old when me and your momma had you.
I-I-I
Didnt know what I should do.
I-I-I
Just chickened out and did what the other guys do.
I-I-I
I never considered what would be best for you.
For you... for you.

And all I ever know was speed will take the pain away.
And all I ever know was speed will take the shame
away.
And all I ever know was speed will take the blame away.
All I ever know, all I ever know was speed will take the
pain away.

I broke you heart.
I broke my heart.
I broke everything.
Trade it all in for a syringe and a bag of speed.
Trade it all in for a syringe and a bag of speed.
I broke you heart.
I broke my heart.
I broke everything.
Trade it all in for a syringe and a bag of speed.

I-I-I
Was 15 years old when me and your momma had you.
I-I-I
Didnt know what I should do.

I-I-I

Just chickened out and did what the other guys do.

I-I-I

I never considered what would be best for you.

For you... for you.

And all I ever know was speed will take the pain away.

And all I ever know was speed will take the shame
away.

And all I ever know was speed will take the blame away.

All I ever know, all I ever know was speed will take the
pain away.

I hope you know what God and Nature made you
perfect,

just the way you are.

I hope you know that God and Nature made you good
enough,

just the way you are.

I hope you know your Daddy loves you

just for who you are!

I hope you know that God and Nature made you a
bright shining star.

A bright shining star.

I broke your heart.

I broke my heart.

I broke everything.
