

Fifteen "Violation"

Visit "[Violation](#)" on MotoLyrics.com

In 1492 Columbus sailed the ocean blue, for love of
god and me and you
In 1941 we intervened to stop the spread of world
fascism
Listen up boys and girls it's the history of the whole
world,
and you know it's true 6 million Jews they call it
genocide,
100 million Native Americans, what an unfortunate
price for today's quality of life
All people, every person experiences violation
When told what is right and told what is wrong and told
what to do under the threat of violent intimidation
Virus kills us now virus kills us then over and over and
again and again
Sun goes down in my town, Berkeley California sold me
on too many dreams
Of justice and brotherhood
Sun goes down in my town,
Berkeley California sold me on too many dreams

Of peace on the earth in our time
In 1969 my forefathers said stop! this land is hers and
his and yours and mine
In 1992 Rosebud sailed the sky so blue, she gave her
life for me and you
All people, every person experiences violation
When told what is right and told what is wrong
And told what to do under the threat of violent
intimidation
Bullets kill us now bullets kill us then over and over and
again and again
Sun goes down in my town
I believe in me
I make my dreams real

*[Use condoms every time. Bleach your needle every
time. Eat Garlic and vitamins every day. Don't let them
jail you. Don't let them kill you. Keep up the good work!]*
