Call to me she speaks with evil eyes  
Drawn away with whispers, of her spell  
All escape but leave their souls behind  
She has you trapped, inside her private hell

Hear her whisper, in the morning light  
She's calling you away

Cry out the fools  
That she takes, in the heat, of passion fire  
Cry out the fools  
In the night no escaping her desire

Lie with me desire is all it takes  
A demon knows your weakness feeds your fright  
Bound in chains your spirit she will break  
She'll set you free, but never leave your mind

[Bridge]

[Chorus]

Hear her whisper, in the morning light  
She's calling you away  
It's just her vengeance, in the night
