Verse 1:

Now it's time to realise, where do we go
A broken heart left in the past
My feelings move on
What should I say, how should I feel
I hope this time that it's for real

Chorus:

I'll stand by you, we'll make it through
This time our love is gonna last forever
You're the one that I love
There's no-one above you baby
These are the words from my heart

Verse 2:

Looking back it's been so hard living apart
But being with you it just feels so right
Like a new lease of life
Now when you sleep can I hold you tight
Will dream of you, all through the night

Chorus:

I'll stand by you, we'll make it through

This time our love is gonna last forever
You're the one that I love
There's no-one above you baby
These are the words from my heart

Middle 8:

The warmth of your smile
The way you make me feel
You know I can't deny this love
That I'm feeling
They say that love is blind
Don't you know when I'm here in your arms
I'll never stop loving you

Chorus(x2)

I'll stand by you, we'll make it through
This time our love is gonna last forever
You're the one that I love

There's no-one above you baby

These are the words from my heart
From my heart
