[Jamie Foxxx]

La la la la la la

Ooh I'd lie for you baby

Ooh I'd die for you baby

[50 Cent overlapping]

I build you up

But if ever I fall down

And I need you to pick me up

Promise me you'll be around

Hold me down

I'll build you up

[Verse 1- 50 Cent]

Listen if you let me, I'll be the reason you shine

Its a secret I want the world to know that you're mine

But on some real shit, communications could be better

So I'm writin' a song, instead of a love letter

They can play it on the radio, a hundred times a day

I figure when you hear it, you would stop and think of me

I wanna get to know ya and be the reason you smile

Girl, you know where I'm from, you know how I get down

When times are tough, tell me that I'm special

Not rap, I mean me, that I'm special

You know they say diamonds are a girl's best friend

Precious stones, could you put me before them

If so, I'll see to it that they always around

Nothin' but the best now, how does that sound

If I drop a jewel when we talk you can keep it

Girl, you on my mind all the time, it's a secret

[Chorus x2- Jamie Foxxx]

Baby I'll build you up

Girl if I, never show I have you by my side

I build you up

Girl I need to know for sure you're mine

I need to know for sure

[Verse 2- 50 Cent]

I think about you thinkin' that you feel the same way

Was it just my imagination again runnin' away
If you ready to ride girl come on let's roll
G-55 fly ma let's go
It's hard to measure the pleasure of havin' you in my
present
Your smile makes me smile, I'll show you my style
We can shop a lil bit, I pick out my shit
One pair at a time, till your shoe games sick
Now who knows what the future holds, we'll be together
probably
For better or worst, like Whitney and Bobby
If you wanna play house, we can play house then
But wait why pretend if you can move in
Before I be your buddy in bed, let me be your best
friend
Girl, it's more than lust, I want your trust
You keep it real with me, I'll keep it real with you
Cause I know with you by my side, there's nothin' I can't
do

[Chorus x2- Jamie Foxxx]
Baby I'll build you up
Girl if I, never show I have you by my side
I build you up
Girl I need to know for sure you're mine
I need to know for sure
