(Rob Halford/Brian Tilse)

Verse :

If I could find a place  
To leave this world behind.  
Somewhere in time and space  
Where I could ease my mind.  
I'd take you there;  
Where we could be alone.  
No one can find this place;  
The secret will be ours.  
With no more pain to face;  
We'll live amongst the stars.

In solitude, and we can wonder free.  
Alone, at last just you and me.  
Our island universe;  
A world unto its own.  
Forgetting all the worst of times,  
They're gone,  
You know we are as one  
To make a life of peace.  
Escape, into eternal sleep...
