Visit "[Revolution Calling](#)" on [MotoLyrics.com](http://MotoLyrics.com)

This is the time that things will change  
A brand new day we'll re-arrange  
You'll let us through  
You'll let us through

This is the revolution you know it'll never end  
This is the new solution you know you can't pretend  
We're the new noise pollution you know we will defend  
This is the revolution you know it'll never ever end

Boy bands fuck off, hang the DJ  
The time has come to go away  
You'll let us through  
You'll let us through

This is the revolution you know it'll never end  
This is the new solution you know you can't pretend  
We're the new noise pollution you know we will defend  
This is the revolution you know it'll never ever end

Revolution Calling  
Revolution Calling  
Revolution Calling  
Revolution Calling

Every single day a new bands gonna play  
But no ones gonna listen pop shit's in the way  
We gotta get rid of it, rid of it now  
Before they all take over and we don't care how

There's bands like us that are gonna change the charts  
But the charts are fucked up, for a start  
This is the time for a brand new age  
But I know I can hear the revolution calling

This is the revolution you know it'll never end  
This is the new solution you know you can't pretend  
We're the new noise pollution you know we will defend  
This is the revolution you know it'll never ever end
