I'm know your as my fucking enemy
I'm know about your from the TV
You'd indicated as for reading rules
This means of made popularity

Yesterday you'd said us what we must read
Now it's the system of government breed
Lack of individual personality
Fucked up the government loyalty

You cannot organize the kids
With sharp -blinded leads
Offerings of error
Birds for wings-cut soar

Addicted to the cock
Unconscious handles was locked
Avoid the upheaval minds
Your was rotten in the my sights

Employer's propaganda of the dysfunctioned works
Young's opinions was pierced to the cocks
Malodorous deeds for wanna be now youth global
pioneer camp
In the best traditions of the Epoch Of Denial
