

Fighting Gravity

"Light My Way"

Visit "[Light My Way](#)" on MotoLyrics.com

I'll tell You everything I am
I'm lost and lonely
I'm afraid of not knowing when I've lost my way
And now I'm standing still
And I can feel you getting closer
I can feel Your love upon me
Will You light my way

(Chorus)
Will You light my way
So I can see the path beyond the light of day
Will I ever be the same
Will You light my way

A fear of losing what I've gained
Will You help me let it go, let it go
Giving everything I have
I part with nothing that is mine
Does this cost outweigh the cure
Is it more than worth the prize

(Chorus)

I surrender all and I seek Your face

Will You light the world
You can light the word
As long as You're in it
As You're in it

(Chorus)
