It takes a lifetime to pull all of the knives
Out of a nations back
This will be the city you lived in but never liked
Let's take the cameras and paint them black

Is this all that you want? [x3]
Is this all you?
Is this all that you want?
Is this really all that you want?
Is this all that you want?

London's just a burning fire
London's just a burning fire
That takes your oxygen
A burning fire
London's just a burning fire
That takes your oxygen

I hope that one day I will get the chance
To lose this hopeless race
I'll be the city on fire that will never sleep
I'll make you vanish without a trace

Is this all that you want? [x3]
Is this all you?
Is this all that you want?
Is this really all that you want?
Is this all that you want?
All I want is don't steal my content!

London's just a burning fire
London's just a burning fire
That takes your oxygen
A burning fire
London's just a burning fire
That takes your oxygen

London's just a burning fire
London's just a burning fire
London's just a burning fire
London's just a burning fire

That takes your oxygen

A burning fire

London's just a burning fire

That takes your oxygen

A burning fire

London's just a burning fire

That takes your oxygen
