You can find your hope amongst the crowds  
Of all the people you've let down,  
We'll find a way to make this okay.  
We skip through the night,  
It's all that we need too,  
And maybe it's all that we'll ever need,  
Just to make us feel alive.

You are, you are, your all around (you are, you are, you  
are, your all around right now)  
You are, you are, your all around (you are, you are, you  
are, your all around right now)

I will never give up on you  
For all the times you sat and sang to me  
Trying to make me better.  
So now I'm trying to let you know  
That this is the English way to make  
Us all fit back together.

Please don't speak these words just save them,  
Walk with me and take a trip  
We'll only stop for water and some other things.  
We skip through the night,  
It's all that we need to  
And maybe it's all that we'll ever need  
Just to make us feel alive.

You are, you are, your all around (you are, you are, you  
are, your all around right now)  
You are, you are, your all around (you are, you are, you  
are, your all around right now)

You can find your hope amongst the crowds  
Of all the people you've let down,  
We'll find a way to make this okay.  
We skip through the night,  
It's all that we need too,  
And maybe it's all that we'll ever need,  
Just to make us feel alive.

You are, you are, your all around (you are, you are, you  
are, your all around right now)  
You are, you are, your all around (you are, you are, you  
are, your all around right now)

I will never give up on you  
For all the times you sat and sang to me  
Trying to make me better.  
So now I'm trying to let you know  
That this is the English way to make  
Us all fit back together.

(All within reason all this is going to be over, all within  
reason all this is going to be over)

Too many lives have been lost  
Under orders of too many people  
That have lost their voices.

You can find your hope amongst the crowds  
Of all the people you've let down,  
We'll find a way to make this okay.  
We skip through the night,  
It's all that we need too,  
And maybe it's all that we'll ever need,  
Just to make us feel alive.

You are, you are, your all around (you are, you are, you  
are, your all around right now)  
You are, you are, your all around (you are, you are, you  
are, your all around right now)

I will never give up on you  
For all the times you sat and sang to me  
Trying to make me better.  
So now I'm trying to let you know  
That this is the English way to make  
Us all fit back together.
