Gut the animals, they won't feel a thing
You're all pigs in shit
You should just call your mothers out
They'd be so proud of you
As you celebrate human suffering

You make it obvious
Should we hang them high up under the gallows
Are we ever going to learn
Are you ever going to value this life

We are privileged, we are all obliged
Just go fuck yourself, I am your sword of Damocles
Get down on your knees
Will you have mercy on us please

How did we all fall down

You make it obvious
Should we hang them high up under the gallows
Are we ever going to learn
Are you ever going to value this life

You live like animals, now it's your turn
We take to the skies as you bury yourself
