"Flotation Therapy"

we have come this far
just crawling on our knees
standing in the wake
is just enough to feel scared
(of the aftermath)
'cause we are...

it's all gone dark
(twenty feet under ground)
are you still alive?

why don't you ever learn?
you just lost control
falling all the way down

i was carrying you
so your footsteps disappeared
save the bitter taste
for this emergency break
'cause we are..

it's all gone dark
(twenty feet under ground)
are you still alive?

why don't you ever learn?
you just lost control
falling all the way down
