It isn't safe in here
It isn't safe on our own
We've got a new place to go and we will call this our
home
The sky is clear but the air is thick with smoke
And all you've got is some heels, your lipstick, and your
raincoat

So let's kill tonight
And we will embrace it with arms held wide
And its blood is black, it's floating through the
bedroom window
So let's stand so close, and we'll not let go
I've got friends here, and they're all dying to meet you

We won't feel sad as they're calling our names
I turn to you and wipe the sleep from your face
We've got nothing to lose
we'll leave nothing to fate
Let's take a walk, we'll meet and we'll be on our own
way

So let's kill tonight
And we will embrace it with arms held wide
And its blood is black, it's floating through the
bedroom window
So let's stand so close, and we'll not let go
I've got friends here, and they're all dying to meet you

Hang close, I've got a plan to kill this
I've got to whisper in your ear
Let's gather all of human life
And by the time it blows, we'll be well clear

Let's run
Run, run, run, run and give it up
Run, run, run, run for good
Run, run, run

So let's kill tonight
And we will embrace it with arms held wide
And its blood is black, it's floating through the

bedroom window

So let's stand so close, and let's not let go

I've got friends here, and they're all dying to meet you
