I'm not from around here
I'll hold on for you but

I can't hold on
To this day, it's all gone

(Waiting always)
It came down to save us
(Untouched open)
And end it all

'Cause I'm under the outside
And over all

'Cause I'm a thousand miles away
And I'm out of oxygen
And now I'm falling faster than
I'd like to be

And I'm closer to the skies
Than I'll ever be to you again
Find the exit signs and disappear

We were hated
It seems we were all wrong

(Find me bleeding)
We looked up to lose
(Peacefulness)
Our way again

'Cause I'm under the outside
And over all

'Cause I'm a thousand miles away
And I'm out of oxygen
And now I'm falling faster than
I'd like to be

And I'm close to the skies
Than I'll ever be to you again
Find the exit signs and disappear

Some things don't, some things don't
Some things don't, some things don't change

Fall

(Born from angels)
Let's star this all over again
With this new generation

(Born from angels)
Let's star this all over again
With the same generation

(Born from angels)
Let's star this all over again
With this new generation
It's neon-genesis
