I'm not from around here
I'll hold onto you but
I cant hold on to this day it's all gone
Waiting always untouched open
It came down to save us and end us all
Cause I'm under the outside
And over all
Cause I'm a thousand miles away
And I'm out of oxygen
And I'm falling faster than I'd like to be
And I'm closer to the sky
Than I'll ever be to you again
Find the exit signs and disappear
We were hated it seems we were all wrong
Find me bleeding peacefulness
We looked up to lose our way again
Cause I'm under the outside
And over all
Cause I'm a thousand miles away
And I'm out of oxygen
And I'm falling faster than I'd like to be
And I'm closer to the sky
Than I'll ever be to you again
Find the exit signs and disappear
Some things dont, some things dont
Some things dont, some things dont
Change
Fall
Born from angels
Lets start this all over again
With the same generation
Born from angels
Lets start this all over again
With the same generation
Born from angels
Lets start this all over again
With the same generation
It's neon-genesis
