You hide it every time you miss
Impatience waits around for me
You dance under the question mark
Without even trying

I'm just not sure it's gonna work
I'm just not sure it's gonna work

You can burn it all
Rally around the table
If you want to
Just to argue out the last scenes of us

You can end it all
I'm sorry enough to tell you
That I'm okay
And I'm never gonna see you again

The killers walking amongst us
Look around, they'll find your ashes
You tread all over your mistakes
And every heart you'll never break

I'm just not sure it's gonna work
I'm just not sure it's gonna work

You can burn it all
Rally around the table
If you want to
Just to argue out the last scenes of us

You can end it all
I'm sorry enough to tell you
That I'm okay
And I'm never gonna see you again, again
I'll can't see you

You stumble through questions
That you could never answer
That barrel is loaded
So go and paint your target

You stumble through questions
That you could never answer
That barrel is loaded
So go and paint your target

So elegant you stagger round
(You can burn it all)
(Rally around the table)
With beautiful falls
(If you want to)
(Just to argue out the last scenes of us)

So elegant you stagger round
(You can end it all)
(I'm sorry enough to tell you)
With beautiful falls
(That I'm okay)
