I'm not in your house
But I'm not in your head
And your not even listening
It's so hard to know when you're not scared
Please don't help me
Please don't help me

And stop putting me down cause I won't ever
understand
I see it in your eyes
I see it in your eyes

I'm trying not to speak
Cause you can't hear my voice
And nothing seems familiar here
On the other side of this town
Please don't help me
Please don't help me

And stop putting me down cause I won't ever
understand
I see it in your eyes
I see it in your eyes

Ohhhhhh woohhh
If I say to start again
I'll try to take my time
I wonder how fast you could try

All this time I thought u knew
All this time I thought u knew
