"Take You Home"

Wait a minute
I would like to take you home again
Wait for me here
You can see it all descending around me

You're only happy sometimes
When you're not worried

We're taking it back
We'll be around for hours
We're taking it back
We'll be around forever this time

Hold your head up
Keep your eyes above the finish lines
Wait for me here
I'll be back around forever this time

You're only happy sometimes
When you're not worried

We're taking it back
We'll be around for hours
We're taking it back
We'll be around forever this time

Wait a minute
I would like to take you home
'Cause you make me smile
