"Zihuatanejo"

would you swim in this water?
would you swim in this water?
infected arms smother us to death
hold on tight..
hold on tight..

until the sun moves around the earth
we will destroy those who come for us

would you drink from this water?
would you drink from this water?
infected eyes are watching over us
hold on tight..
hold on tight..

until the sun moves around the earth
we will destroy those who come for us
it's cold when i ... ?

this broken... ?

until the sun moves around the earth
we will destroy those who come for us
