Visit "[Who Belongs](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Tear down the walls you create when you claim  
To have open mind  
My message is what I believe  
In this lifeless world that we now live in

How could I keep this  
Freedom I have from you?  
Salvation, it is yours to embrace

I heard the words you said, we don't belong  
You try to shove us out of this hardcore scene  
It's yours, it is mine, we share the same stage  
And I am here to stay

Oh, I can see all too clear  
Another day I'll be here

Now's the time to realize  
We are not the enemy  
I am not of you but I'm not you  
I'm here for you, go

I'll be here beside you
