Do you feel the air we breathe?  
Do you feel the things I see and do you feel you're  
close to me?  
Do you feel the air we breathe?  
Do you feel the things I see and do you feel you're  
close to me?

Out of the street lights  
Up on the top of a hill  
I was dreaming  
My head just needed to chill  
I'll get it together  
I'll speak to you briefly  
And open your mind in a cheap suit

Do you feel the air we breathe?  
Do you feel the things I see and do you feel you're  
close to me?  
Do you feel the air we breathe?  
Do you feel the things I see and do you feel you're  
close to me?
