Don't do this and don't do that
And won't you feel at home
Together we can make it on our own

Tell me what I did was wrong
And beg me to come home
Show me a way to leave the past alone

You wanna tell me things are not
The way they seem to be
Prove the night, it's takin' over me

My dear, listen to me
And know what way to go
Build a home it's safe, you have some dough

On and off we made it now
It's up and up and down
On and off we made it now
It's up and up and down

I don't know if we'll make it
But I'm glad you're still around
On and off we made it now
It's up and up and down

The other day you picked me up
I was lying on the street
Sorriest of the state that I was in
I just had a few [Incomprehensible]
Believe what I said is true
My head works fine, it just kills me who are you?

On and off we made it now
It's up and up and down
On and off we made it now
It's up and up and down

I don't know if we'll make it
But I'm glad you're still around
On and off we made it now
It's up and up and down

When I woke the fire went dead
The pain was in my eyes
Let's undo the taste you didn't like

Now I know it's up to me
And I know what way to go
Dear, I love you
Please, don't leave me on my own

On and off we made it now
It's up and up and down
On and off we made it now
It's up and up and down

I don't know if we'll make it
But I'm glad you're still around
On and off we made it now
It's up and up and down
