#### 1st Verse:

Your pain and struggle  
has brought me in this world  
you worked endless hours  
just to give my back a shirt  
words cannot express the love  
I feel inside  
you're the pillar of my life  
the reason why I give this world a try  
and I just wanna say

#### Chorus:

Thank you mama  
for the pain that you dred  
the tears that you shed for me  
thank you mama  
you'll be queen of my life  
until the day that I die  
your the best thing  
that ever happened to me

#### 2nd Verse:

You always told me  
to put God first in my life  
and always remain humble  
no matter how high the tide  
there's no way to pay back all of your love  
how you gave it all to me  
and taught how to pray down on my knees  
that's why I say  
(back to chorus)

#### Bridge:

I wish you could live, forever and ever  
and anything you want I want to be your provider  
oh mama I want the best for you,  
my mama you know I love you  
(back to chorus)
