Last seat on the bus Who you gonna trust Which one do  
you follow Don't make such a fuss Last seat on the bus  
This much should make you hollow 'Cause every time  
you make yourself the reason Is everytime you make  
yourself between... Yeah Yeah, this is a American cliche  
Get on the bus American, American Yeah, this is a  
American cliche American, American Get on the bus  
First seat on the bus Who you gonna trust Which one do  
you may follow Don't make such a fuss First seat on the  
bus Which one do you make hollow Now every time you  
make your friend the reason And every time you make  
your friend beaten...yeah American, American Yeah,  
this is a American cliche Yeah, this is a American cliche  
Get on the bus American, American Get on the bus You  
want a way to be the same Oh no You want a way to be  
the same You want a way to be the same
