Whenever you go  
Trying to know  
Just breath in  
Just breath in  
What'll you find  
Quiet your mind  
The secrets we needed  
All of these years  
You'll get it near  
The meaning  
Shine on  
Shine on  
Shine on  
I can see stars alive  
Into the future  
All of our deepest fears gone  
There is no chance of life far from the sunlight  
All this world will shine on  
You and I will shine on  
Shine on  
Shine on  
Shine on  
Shine on  
I can see stars alive  
Into the future  
All of our deepest fears gone  
There is no chance of life far from the sunlight  
All this world will shine on  
You and I will shine on
