All I want
Is an ordinary moment here with you
No distractions
Tell the world
That you're busy doing nothing
Cancel everything
Let it go

Meet me in the kitchen at the table
I just want to be alone with you
Stare into the eyes I've been missing
Don't say anything
You don't need to

All I want
Is an ordinary moment here with you
No distractions
Tell the world
That you're busy doing nothing
Cancel everything
Let it go

Meet me in the kitchen at the table
I just want to be alone with you
Stare into the eyes I've been missing
Don't say anything
You don't need to

Do you know?
We've been working so much
We're forgetting to touch
What have we become?
Do you know that it's a crime
To never find the time to love
We've been working so much
We're forgetting to touch
What have we become?
Do you know that it's a crime
To never find the time to... to... lo-lo-love
