He meets her in a tavern  
He's taken by her smile  
She thinks he looks reckless  
And she's feelin' kind of wild  
They leave that bar together  
Make the rounds from place to place  
They try to keep it light  
Still they wind up face to face

So they open up the bottle  
To let those feelings out  
It's the only way they know  
To say the truth or hide the doubt  
In the night they love and fight  
And sometimes even touch  
But in the day they don't remember much

They hold on to one another  
Make a circle of their friends  
Time passes quickly  
When the party never ends  
They do everything together  
Till there's nothing left to do  
But keep the champagne flowing  
Right on through the honeymoon

So they open up the bottle  
To let those feelings out  
It's the only way they know  
To say the truth or hide the doubt  
In the night they love and fight  
And sometimes even touch  
But in the day they don't remember much

Well the sun comes thru the window  
She crawls out of bed  
Tries to make the coffee  
While he tries to clear his head  
They stare across the table  
They've come down to the problem  
And it's gonna take some work

So they open up the bottle  
To let those feelings out  
It's the only way they know  
To say the truth or hide the doubt  
In the night they love and fight  
And sometimes even touch  
But in the day they don't remember much
