(Verse)

I lost my taste for sin
It lives in my frustration
I lost my will to win
'Cause you're feeling my temptation

(Pre-Chorus)

Woa woa woa, I don't miss it
Woa woa woa, yea
Woa woa woa, I don't miss it
Woa woa woa

(Chorus)

All of the secrets you kept
Secrets that trashed my reputation
You left it too hard to fix
From all your lies and manipulations
All I know
This finger's for you
Yea
This finger's for you

(Verse)

Found myself some gin
I'm losing my religion
I drink it all within
I live with my decision

(Pre-Chorus)

Woa woa woa, I don't miss it
Woa woa woa, yea
Woa woa woa, I don't miss it
Woa woa woa

(Chorus)

All of the secrets you kept
Secrets that trashed my reputation
You left it too hard to fix
From all your lies and manipulations
All I know
This finger's for you

Yea
This finger's for you

(Bridge)
Please hold me
Please hold me now
Please hold me
Come, angel

This, this, this
This finger's for you
This, this, this
This finger's for you

(Chorus)
All of the secrets you kept
Secrets that trashed my reputation
You left it too hard to fix
From all your lies and manipulations
All I know
This, this, this
This finger's for you
Yea
This, this, this
This finger's for you
