In our kingdom the battle arrives  
5000 enemies want our lives  
But not with us  
We're proud of our lives  
We're strong vikings and of course  
Odin's children

The armor is strong  
And fear is gone  
When we're ready to fight  
And we're ready to fight

With our lives we defend our land  
Come on you stupid fools  
The war horn rise  
And fearless we'll ride

The furious ones we are  
Killing, dying, our enemies crying

And they're running out of the land

Thor's thunder strikes  
The Valkyries ride  
Let's begin the final fight  
Let's begin the final fight

But what is this...  
I'm feeling sick an arrow child my heart  
Don't cry brothers it's okay if Odin wants me on his side  
I'm on the lightning path to Vallhalla  
My final place to live inside

But...

Brothers stay and live the cult  
To be a viking warrior
