[King:]

Straight out of hell I will come from below  
I conquer the world, destroy all you've known  
Fear is my friend and hate is my love  
I torture your soul, there's no help from above  
The desert is mine, the earth my desire  
Send deadly beams to set you on fire  
Kill all you've got, destroy all your lives  
Fill you with space and the whole human race

[Choirs:]

He is the lonely ruler and master of the world  
He holds the dead of ages in his hands  
Fear his name, fear his hate, fear his revenge  
His mighty realm of steel is here and will never die

[King:]

Finally I know what lies beneath you  
Manipulate you, so you believe too  
Finding my way into your hiding places  
Fumigate you but you think I'm not here

[Choirs:]

He is the lonely ruler and master of the world  
He holds the dead of ages in his hands  
Fear his name, fear his hate, fear his revenge  
His mighty realm of steel is here and will never die

[King:]

I am here to rule the world enslave them all  
None escape to freedom  
I am the king of the Court and when I die I will return

[Choirs:]

He is here to rule the world enslaves us all  
None escape to freedom  
He is the king of the Court and when he dies he will  
return

[King:]

I ride to the skies above 'cos the black sun is my fate  
There I have to seek for the sources of my hate

But no priest or demon's eye will help me, it's too late  
There are my doubts and fears that force me to my  
knees  
In every turn of being "me" I hunt my enemies  
My evil heart is bleeding but there's nothing to give me  
what I need

[Wizard Queen:]  
Remember your last day will come  
You fallen angel of the sun  
Break my chains before it will be done. Ahhh...

[Choirs:]  
He is the lonely ruler and master of the world  
He holds the dead of ages in his hands  
Fear his name, fear his hate, fear his revenge  
His mighty realm of steel is here and will never die

[King:]  
I am here to rule the world enslave them all  
None escape to freedom  
I am the king of the Court and when I die I will return

[Choirs:]  
He is here to rule the world enslaves us all  
None escape to freedom  
He is the king of the Court and when he dies he will  
return  
We are here to rule the world enslave us all  
None escape to freedom  
We're the kings of the Court

[King:]  
And when I die I will return
