[Saviour:]

I was born into the world  
I'm a child don't know what I will be when I'm old  
Tears I have cried thousands of tears  
But I know it is the only way to aswer the pain  
Sometimes I think my loneliness is just an old friend  
Met him in my old life before  
Lovely old friend, lovely old friend who will come when  
you are gone  
Who will be with me if not you

[Wizard Queen:]

I see the world look up to you  
Take your hand, feel the life that is in you  
Don't know who you are, don't know where you are  
going to  
But you seem to be someone  
Who really loves the ones who cannot love
