Far below the city's glow
Lie the flowers blooming in the shadows
They comfort me, saving me
From all I see

Then you came with eyes of pain
Haunting blue and gentle
Like a spring rain
Silently beckoning
For a love to cease your inner tears

I belong here with you
Though the earth cries inside me
I will fly
High into the storm
Far from the light
I will be strong

Because they need you
Because I love you
You close your eyes now
I will be gone
But my love for you will go on

Darkest skies, hollow eyes
But the stars burn brighter
Than you realize
It may be destiny
That sheds our tears

You must leave me behind
Though the night howls inside you
You must fly
High into the storm
Far from the light
You must be strong

Because they need you
Because I love you
You close your eyes now
And I will be gone
But my love for you will go on
