"Waste Of Mind, Waste Of Life"

Could this be all that we are good for?
And can this be all that I can offer?
Just a mind that's trained to waste away.
What do you have to show for you ruined day?
Make your dent here with your life.

Live a life full of pride, when I go I know I tried,
To live a full life, that wasn't along for the ride.

I'd rather be buried than ungrateful.
To be given life and food on the table.
And in a world this shaky, unstable.
We've got to be less hateful.
