Live everyday like it is the last,  
I know you've heard it all.  
My p.m.a. is built to last,  
Keeps me from going insane.

Right here, right now - best of times,  
... before my life runs out.

No matter what's coming your way,  
The trick is always the same:  
Never give up, never give in.  
Get back on your feet.

Yes I do face bullshit everyday  
And I've been stabbed in the back.  
Reality slapped me in the face,  
Pushed me over the edge.

Right here, right now - best of times,  
... before my life runs out.

No matter what's coming your way,  
The trick is always the same:  
Never give up, never give in.  
Get back on your feet.
